

EX900 Water Quality Meter Kit

Surface Measurements of Chlorine, pH or ORP and temperature.

- 4-in-1 Water Quality Meter
- Flat surface electrodes
- Waterproof water quality meter
- Automatic electronic self calibration
- Saves up to 15 readings
- Automatic Temperature Compensation

Description

The EX900 Water Quality Meter kit expands your water quality monitoring capabilities by including a water quality meter and three interchangeable modules to measure Chlorine, pH, and ORP while also being able to monitor water temperature. Each module uses flat surface technology that provides fast and easy on the spot water quality meter measurements of liquids, semi-solids, and solids. The water quality meter design is rugged and designed for harsh environments, so you no longer have to worry about electrode breakage or clogged junctions. The water quality meter is waterproof to the IP67 standard. The water quality meter includes an automatic electronic self-calibration feature for Chlorine and ORP; 1, 2 or 3 point buffer calibration for pH to assist with your water quality measurements.

The EX900 Water Quality Meter can save up to 15 readings and the last calibrated value in its memory. These readings are displayed on the large 3-½ digit LCD screen. The water quality meter also has automatic temperature compensation for the water quality measurement modules. The water quality meter kit includes the water quality meter, chlorine probe, gel filled pH electrode, ORP electrode, protective sensor cap, 5 packs of 10 reagent tablets (50 tests), 5 plastic sample cups, weighted stand, pH 4, 7 & 10 buffer packs, four LR44 button batteries, carrying case, and a 48" neckstrap.

Specifications

Chlorine Range: 0.01 to 10.00 ppm
pH Range: 0.00-14.00 pH
ORP Range: -999 to 999 mV
Temperature Range: 23° to 194°F (-5° to +90°C)
Max. Resolution: 0.01 pH, 0.01 ppm, 1mV, 0.1°
Accuracy: ±0.01pH, ±10% rdg ±0.01 ppm, ±4mV, ±1.8°F/1°C
Power: four LR44 button batteries
Size: 9.5x6.8x2.8" (241x173x71mm)
Weight: 1.7Lbs (760g)

Options and Accessories

EX900 Water Quality Meter Kit

Includes the water quality meter, chlorine probe, gel filled pH electrode, ORP electrode, protective sensor cap, 5 packs of 10 reagent tablets (50 tests), 5 plastic sample cups, weighted stand, pH 4, 7 & 10 buffer packs, four LR44 button batteries, carrying case, and a 48" neckstrap.

CL205 Spare Chlorine Meter Electrode

CL203 Reagent tablets (10pk - 100 tests)

PH105 Spare pH Electrode Module

RE305 Spare ORP Probe Module

EX006 Weighted base with 5 solution cups
